

Dear fellow conchologists and lovers of Caribbean shells,

Thank you for showing an interest in one of my most extraordinary collecting trips ever offered.

SOME GENERAL INFORMATION

Our trip originates from Roatan Island's International Airport, where you will be transported by courtesy van to the beautiful Turquoise Bay Resort, have dinner and spend the night. The following morning we will be driven to the village of French Harbor and board our vessel, the **Capt. Ron**. Indeed the ultimate way to cruise the Gulf of Honduras and dive the species-rich waters off the Honduran mainland. Following eight (8) nights along the Honduran coast, we return to Roatan Island and to Turquoise Bay Resort where we spend our final night before departing for home the next morning.

YOUR TRIP INCLUDES:

- **Two nights stay at Turquoise Bay Resort (including meals)**
- **Eight (8) days and nights aboard Capt. Ron (including three meals per day)**
- **Unlimited night diving while aboard the Capt. Ron**
- **I'll be your personal guide:** Daily meetings will provide you with a detailed account and valuable information on locations, habitats and habits of some of the rarest shells found in what is arguably one of the last great undiscovered faunas in the entire Caribbean. Remember, the research has already been completed! I've taken the guesswork out of the equation. If you are seriously interested in western Caribbean rarities, this once-in-a-lifetime trip is for you.
- Don't miss out - There's room for only **SIX (6) lucky guests**.
